# Product Specification Sheet

## TF18 E

The TF18 E is a new and exciting addition to our TF range. This entry level 18kW electric commercial heater, features a single fan speed and two power settings 9kW / 18kW, able to maintain a constant temperature in areas up to 350m$^3$. Compatible for use with our textile air distributor that spreads the air in 360 degrees of direction, or through additional ducting producing an airflow of up to 2200m³/h.

This iconic blue heater is designed for deployment in a range of industry sectors including, construction sites, industrial areas, event spaces, supermarkets, warehouses, workshops, and similar areas. Operated by 2 manual controls, one for the temperature output and the second for the power output of the machine: Off, Fan only, Fan + 9kW, Fan + 18kW.

Robust, practical and lightweight, the TF18 E is constructed with galvanised sheet steel and finished with a corrosion-resistant powder coating.

## Product Benefits

- Mechanical thermostat for room temperature control
- 2 easy roll wheels
- High temperature increase and large air flows for maximum energy efficiency
- Air distributor spreads air around the room and gives 360-degree coverage
- Compatible with additional ducting

## Technical Data

| | |
|---|---|
| **Product name** | TF18 E |
| **Product Number** | EB17400 |
| Plug type | 5-pin 400V 32A CEE 432-6 |
| Rated current | 28A |
| Voltage | 400V |
| Total thermal power | 18kW |
| Output modes | 9-18 kW |
| Air flow | 2200m³/h |
| Noise level | 71dB(A) |
| Weight | 60kg |
| Dimensions excl. distributor H x W x D (mm) | 1150 x 550 x 620 |
| Dimensions incl. distributor H x W x D (mm) | 2300 x 550 x 620 |
| Protection class | IP44 |
| Seasonal average efficiency | 36% |
