

Product Specification Sheet

KH2.5 Dual Voltage

The KH2.5 Dual Voltage portable heater is our smallest and most versatile Cube Heater, able to be changed between a 230V domestic plug or a 110V, 3 pin, 32 amp plug (both plug variants included). Designed for temporary or permanent heating, ideal for use in; schools, retail shops, warehouses, workshops, office spaces, constructions sites, industrial areas, event spaces and similar areas.

Equipped with a large connection collar that allows for the connection of additional ductwork to help better direct the flow of warm air to specific areas. The KH2.5 portable heater produces a high airflow with minimal noise and is equipped with a mechanical thermostat allowing you to control the room temperature. The overheating protection technology allows the heater to safely run unattended without overheating within a dry work environment.

Product Benefits

- Mechanical thermostat for room temperature control
- Overheating protection
- High air flow with low noise
- Interchangeable between 230V and 110V power supplies

Technical Data

Product name	KH2.5 Dual Voltage
Product Number	EB16584
Rated current	9A-18A
Voltage	230V and 110V
Plug type	110V, 3 pin, 32 amp plug and 230V, 3 pin, 13 amp plug
Total heat output (kW)	2
Power setting (kW)	2
Airflow (m ³ /h)	375
Noise level (dB(A))	52.8
Weight (kg)	11.5
Dimensions HxWxL (mm)	333x299x274
Protection rating	IP44
Average seasonal efficiency	36%
