

Product Specification Sheet

Vent TB 3850

Our Vent TB 3850 is a Commercial Drying and Ventilation Fan runs off a low power consumption whilst delivering an impressive volume of air, all thanks to large and efficient fan blades. Lightweight in design, the Vent TB 3850 is equipped with a practical carrying handle and cord holder, making it easy to manoeuvre and reposition. This fan is perfectly suited for recirculating air within industrial or commercial spaces, drying floors and carpets in construction sites and event spaces. The fan can also be connected to a straight duct system up to 38 metres in length, ideal for extracting gases and smoke from tunnels, basements, buildings and in industrial settings. The fan housing is constructed from highly durable polypropylene and can easily be stacked for use, or easier transport and storage.

Product Benefits

- Durable Rotomolded housing
- Stackable
- Equipped with practical carrying handle and cable holder
- Can be connected to duct system, max. 38m

Technical Data

Product name	Vent TB 3850
Product Number	EB15009
Voltage	110 V
Hose dimension	300 mm
Air flow	3850 m³/h
Connector	CEE 216-4
Dimensions H x W x D (mm)	520 x 380 x 495
Weight	13,5 kg
Protection class	IP22
