Product Specification Sheet

HRFW-160 Stage 5 Generator

The HRFW-100 is one of our largest Stage V(5) Diesel Generator, producing a total power output of 157kVA, fitted with 3 x 32A 230 2P+E, 2 x 32A 3P+N+E, 1 x 63A 3P+N+E sockets and a 580ltr internal bunded fuel tank for short term power generation (recommended to be used with additional bunded fuel tank for continuous use). Our Stage V(5) Diesel Generators have been specifically designed to be compliant with EU Regulation 2016/1628/CE. Using a sophisticated built in exhaust treatment system, these generators clean the fumes expelled by the engine before they are released into the atmosphere. This process provides a reduction of up to 90% of environmentally hazardous gases and particles compared to previous technology. This generator is perfectly suited as a temporary power source for larger projects on construction sites, temporary work spaces, industrial areas and events venues with access to outside space.

Product Benefits

- 157kVA Stage V Diesel Generator
- 580ltr Metal Bunded Fuel Tank
- Socket Pack 3 x 32A 230 2P+E, 2 x 32A 3P+N+E, 1 x 63A 3P+N+E

Technical Data

Product Number GEN160S5 Power Output 157kVA Internal Metal Bunded Fuel Tank 580ltr Engine Iveco - Stage V Diesel Engine Filter Racor filter with alarm Alternator Stamford Alternator - UCI274F Breaker Schneider Motorised Type 'D' Breaker 4P 250AMP Breaker Fuel Valve 3/8" - 3 way valve kit and fast connection fittings for fuel decanting Socket Pack 3 x 32A 230 2P+E, 2 x 32A 3P+N+E, 1 x 63A 3P+N+E Dual Frequency 50/60Hz RCBO 2 x 32A 3P+N+T and 3 x 32A 2P+T	Product name	HRFW-160 Stage 5 Generator
