

Product Specification Sheet

Lower MOD.DU Shroud Cover

Our lower shroud covers fit securely within our MOD.DU enclosures and provide complete segregation of the lower half of the MCCB modules outgoing cables, with protection to IP2x. This product is able to be adjusted to the accurate width needed to cover the MCCB module cables, and comes complete with fixings to secure the shroud to our MOD.DU enclosures.

Product Benefits

- Adjustable design
- Provides complete segregation for MCCB Units
- IP2x protection
