

Product Specification Sheet

Medium Evaporative Cooling Fan

Cooling your environment through the power of water. Built to cool large open spaces, our **Medium Evaporative Cooling Fan** works by drawing warm air through a cascading water honeycomb pad, distributing a refreshingly cool breeze back into its given environment. This unit performs best in hot/dry climates with a relatively low humidity level (less than 60%). Key features include: Three-speed fan, Oscillating louvre functions, Operated by Mechanical dials, Top loading water inlet and ice tray, Easy drain water plug, 140w rated power consumption, Easy roll wheels, 230V domestic plug. The lightweight design makes the unit discreet and easy to manoeuvre, suitable for indoor and outdoor use. Using no coolant or compressor, evaporative coolers use considerably less electricity than AC units and with no need to exhaust hot air, they are able to be used in enclosed environments with no or non-opening windows up to 96m².

Product Benefits

- Lightweight and Portable Design
- Easy To Use Controls - 3 speed fan
- Built-in Ice Compartment
- Suitable for areas up to 96m2
- Requires No Coolant

Technical Data

Product name	Medium Evaporative Cooling Fan
Product Number	GB80022
Suitable Area	96 m²
Fan Stages	3
Air flow	1800 m³/h
Air Throw Distance	7.9 meters
Power Consumption	140 W
Weight	13.3 kg
Dimensions H x W x D (mm)	870 x 620 x 376
Water Tank Capacity	48 Litres
Product make and model	Honeywell CL48PM
