

# Product Specification Sheet

## TF3 230V

During development of TF3 we have created the most convenient machine on the market in terms of dimensions, weight and performance. Fitted with a domestic 230V, 3 pin, 13 Amp plug, the TF3 delivers a full 2.8 kW of heating from an power overall consumption of just 3 kW. With the ability to be used both indoors or outdoors, the TF3 is adaptable for a multitude of applications from industrial and construction sites to warehouses and event spaces.

This heating and drying fan includes a continuously thermostat, variable between 5–45 °C, with automatic overheating protection. The TF3 is able to spread heated air over 360 degrees of direction, thanks to the integrated air distributor, making it a powerful drying fan for floor area of 50–60 square metres.

## Product Benefits

- Maximum heat output 45 °C
- Continuously variable thermostat for temperature control
- Ruggedly constructed from corrosion-resistant galvanised and powder-coated sheet metal
- Stackable design takes up very little space during transport and storage
- IP44 protection rating

## Technical Data

<b>Product name</b>	TF3 230V
<b>Product Number</b>	EB12322
Plug type	2-pin 230V 16A Schuko E/F hybrid
Incoming Cable Length / Area Cable / Connector	2m / H07RN-F 3x1,5 / -
Rated current	13 A
Output modes	3,0 kW
Total thermal power	3,0 kW
Temperature increase	35 °C
Air flow	450 m <sup>3</sup> /h
Noise level	61 dB(A)
Weight tot	12 kg
Dimensions H x W x D (mm)	500 x 295 x 300
Protection class	IP44
