Product Specification Sheet

TF36 EBC

A high-performance, energy-efficient, commercial heating fan, designed to maximise the throw of warm air to its given environment. The TF36 one of the most powerful heaters in our range. Featuring two power settings; 18kW / 36kW, the TF36 is able to maintain a constant temperature in areas up to 600m^3 through a sheet metal air distributor that spreads the air in 360 degrees of direction. Robust, practical and lightweight the TF36 is constructed with galvanised sheet steel and finished with a corrosion-resistant powder coating, making it easy to maintain and reposition when needed. Operated through a user-friendly digital control panel mounted on the front of the machine, allowing you to easily change the temperature and fan speed of the unit.

TF36 is the ideal heating unit for use in large open areas such as constructions sites, industrial areas, event spaces, warehouses, retail shops, workshops, and similar areas.

Product Benefits

- For purchase and prices, please contact us directly on 01252 423 512
- Electronic thermostat for room temperature control
- High temperature increase and large air flows for maximum energy efficiency
- G4 standard filter
- Two filters for consistent, high-volume air flow
- Air distributor spreads air around the room and gives 360-degree coverage

Technical Data

Product name	TF36 EBC
Product Number	EB14646
Plug type	5-pin 400V 63A CEE 463-6
Rated current	57 A
Voltage 3N~400V V	3N~400V V
Total thermal power	36 kW
Output modes	18-36 kW
Air flow	3850/4650 m³/h
Noise level	68/63 dB(A)
Weight total	127.5 kg
Weight top	41.5 kg
Weight bottom	77.5 kg
Weight distributor	8.5 kg
Dimensions excl. distributor H x W x D (mm)	1200 x 740 x 935

EL-BJÖRN UK Ltd
Unit 5 Beacon Hill Logistics Park, Beacon Hill Road, Church Crookham,
Fleet, Hampshire, GU52 8DY

E-mail: info@elbjorn.com

Dimensions incl. distributor H x W x D (mm)	2150 x 740 x 935
Protection class	IP44
Seasonal average efficiency	36%
