

# Product Specification Sheet

## TF72 EBC

A high-performance, energy-efficient, commercial heating fan, designed to maximise the throw of warm air to its given environment. The TF72 is the largest and most powerful heater in our range. Featuring two power settings; 36 kW / 72 kW, the TF72 is able to maintain a constant temperature in areas up to 1500m<sup>2</sup> through a sheet metal air distributor that spreads the air in 360 degrees of direction. Robust, practical and lightweight the TF72 is constructed with galvanised sheet steel and finished with a corrosion-resistant powder coating, making it easy to maintain and reposition when needed. Operated through a user-friendly digital control panel mounted on the front of the machine, allowing you to easily change the temperature and fan speed of the unit.

TF 72 is the ideal heating unit for use in large open areas such as constructions sites, industrial areas, event spaces, warehouses, retail shops, workshops, and similar areas.

## Product Benefits

- For purchase and prices, please contact us directly on 01252 423 512
- Electronic thermostat for room temperature control
- High temperature increase and large air flows for maximum energy efficiency
- G4 standard filter
- Two filters for consistent, high-volume air flow
- Air distributor spreads air around the room and gives 360-degree coverage

## Technical Data

<b>Product name</b>	TF72 EBC
<b>Product Number</b>	EB14647
Plug type	5-pin 400V 125A CEE 4125-6
Rated current	110 A
Voltage	3N~400V V
Total thermal power	72 kW
Output modes	36-72 kW
Air flow	6454/7900 m <sup>3</sup> /h
Noise level	63/69 dB(A)
Weight total	180 kg
Weight top	72 kg
Weight bottom	96.5 kg
Weight distributor	11.5 kg
Dimensions exkl. distributor H x W x D (mm)	1400 x 740 x 1110
