Product Specification Sheet

TF9EL

An energy-efficient, commercial heating fan, designed to maximise the throw of warm air to its given environment. The TF9EL is equipped with three adjustable ejectors, able maintain a constant temperature in areas up to 175m². Robust, practical and lightweight the TF9EL is constructed with galvanised sheet steel and finished with a corrosion-resistant powder coating, making it easy to maintain and reposition when needed.

TF9EL is the ideal heating unit for use in smaller open areas or in combination with our TF18 units for use in constructions sites, industrial areas, event spaces, warehouses, retail shops, workshops, and similar areas.
