

Environmental policy

El-Björn will meet the laws, regulations and requirements of customers and authorities, and where technically and economically feasible will reduce environmental impact by taking preventive measures such as:

- Using materials efficiently and avoiding waste.
- Minimizing energy consumption and greenhouse gas emissions.
- Imposing environmental requirements on our suppliers.
- Training and involving everyone in the company.
- Continuously setting and pursuing environmental targets to achieve continuous improvement.
- Running our business in a safe and well-planned way to prevent pollution.
